**Subject:** RE: MI and RAC recommendations for Output Leads

Hi David,

Attached is the list of recommendations for output leads from the SHC RACs. Please note that there were some minor changes made to the names of the outputs to reflect what was in the final SHC StRAP. If you have any questions, please let us know.

Thanks,  
Jennifer

**Subject:** MI and RAC recommendations for Output Leads

Dear RACs and MIs,

As we discussed earlier this week, our target is to finalize Output Leads by April 29. I am asking that the you, RACs and MIs from each Program, work as a team to provide your recommendations for Output Leads to me by April 22 (see the complete timeline below). It would be incredibly helpful to have only one submission on behalf of each Program. It makes sense that you would use the lists you have already been working on with your line-management and NPDs. Attached is a table for each National Research Program that contains my understanding of the latest list of Outputs for you to use in submitting your recommendations. Please edit if I not accurate.

Please enter your recommendations for Output Lead for each Output in the cell under column F (include name and organization). Please indicate where you have not been able to identify a single recommendation in the cell G (remarks). If you are requesting co-leads, please provide an explanation why. Note that LC Directors, NPDs, and the IOAA haven't decided if they will allow co-leads. I suspect if they do, it will be in limited cases.

#### Timeline for selection of Output Leads

- 1.) Kryak requests RACs/MIs to provide the latest list of Outputs and nominations of Output Leads to Kryak by April 22
- 2.) Kryak provides consolidated list and summary analysis to LC directors and NPDs by April 23
- 3.) LCs resolve any issues between LCs and NPDs, providing any changes to Kryak for master list, by April 29. – if necessary, possible meeting of LCs and NPDs
- 4.) LCs notify their Output Leads April 30

Please let me know if you have any questions or you need any help.

Dave
